Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner informed Attorney Gean that the application would be allowable if the limitations of dependent claim 10 was rewritten into all of the independent claims. This expresses the novelty of the invention and overcomes the prior art of record. Also, Examiner informed Attorney Gean that claim 33 contains non-statutory subject matter and should be amended to contain a physical implementation in the preamble. Attorney Gean agreed to the Examiners recommendations and authorized an Examiners Amendment to reflect the discussed allowable features..
